### HERE'S NEW VIGOR FOR OVERWORKED STOMACHS

The Red Cross Pharmacy, the popular drug store, has been in the drug business long enough to have their own opinion of the best way of selling medicines. They say the plan adopted by Micon, the great digestive remedy, is the fairest they have ever heard of. They do not believe that a medicine ought to be paid for unless it does the user some good. And Micon is sold under a positive guarantee to relieve dyspepsia or to refund the money. You simply leave 50 cents on deposit with the Red Cross Pharmacy and if, after you have used the box of Micon, you decide that it has done you no good, all you have to do is to tell them so, and they will return your money. Hundreds of people have been relieved of stomach ailments by using this remarkable remedy. It is not simply a food digester; it is a medicine that puts all of the digestive organs into normal condition and gives ruddy, glowing, vigorous health. A change for the better will be seen after the first few doses of Micon, and its continued use will soon give the power to eat anything at any time and not suffer distress afterward. Micon is sold under a positive guarantee to refund the money if it does not cure. This is the strongest proof that can be offered as to the merit of the medicine. Nothing seems a more successful remedy in its work or a woman's fascinating personality more than a weak stomach, with its attending evils. Use Micon and see how much more there is in life—Advt.

### ABOUT THE STATE

#### HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

A Hydeville farmer who put 150 bushels of potatoes into his cellar, has already carried out 37 bushels of rotten ones.

Silas W. Stuart, aged 83 years, for 49 years engaged in the lumber and wood turning business at Bellows Falls, died at his home Monday. He retired from business 18 months ago.

F. F. Lewis of St. Albans, a railroad brakeman, has filed a petition in bankruptcy with Clerk F. S. Platt of the United States court. He has liabilities of \$1,082.50 and assets of \$94.15, of which \$75 is claimed exempt.

James H. Cole, a veteran of the Civil war, and a well-known musician of Rutland, was quietly seriously injured in that city Tuesday when he was knocked down by the Cole automobile which is used as a stage between Rutland and Pittsfield. Mr. Cole's sight is poor and he did not see the car approaching. His head and back were hurt.

W. A. Shaw, meteorologist in charge of the United States weather bureau at Northfield, reports a mean temperature for October of 47 degrees, which is three degrees above the normal for the month. The highest was 74 degrees, on the 13th, and the lowest was 20 degrees, on the 25th. The greatest daily range was 37 degrees, on the 11th, and the least daily range was four degrees, on the 2nd. The precipitation amounted to 1.72 inches, the normal for the month being 2.48 inches. The prevailing wind was from the south, the total movement 5,412 miles, the average hourly velocity 7.3 miles, and the maximum velocity 30 miles per hour, from the northwest on the 23rd. The month was made up of six clear, 10 partly cloudy and 15 cloudy days. Precipitation in quantity sufficient to measure occurred on 12 days. Auroras were noted on the 1st, 4th, 16th, 18th, 19th and 20th, heavy frosts on the 1st and 10th and a killing frost on the 11th.

Matthew Gainey of Burlington has in his possession a relic of Brown's raid at Harper's Ferry, it being a horse pistol, which it is claimed was used there. The pistol was taken by Mr. Gainey in exchange for a debt, it coming into his hands from a relative of Governor Pitkin, the first governor of West Virginia, who was appointed to his office by the president when West Virginia was set off from Virginia. The pistol is a muzzle loader with which a percussion cap was used. It is a United States Springfield make and was manufactured in the year 1855. It is about 18 inches long, with a 12-inch barrel. In the butt the initials A. S. and the date '59 are cut in the wood. There are two holes in the iron part of the butt, where the stock made to rest against the shoulder can be adjusted. The ramrod which was used in loading is attached by a swivel to the pistol so that it cannot be lost. The pistol is in a very fair state of preservation.

### PURE WATER SUPPLY.

A successful artesian well has just been drilled for Mr. Frank B. Martin on top of the hill at his farm in Marshfield, near Plainfield, Vt. The well was completed at a depth of 32 feet, all of which was drilled in the solid ledge excepting 8 ft. of top ground. Water stands within 7 ft. of top of ground, and when Mr. Martin lowers his supply pipe in the water will run without any pump into his buildings, giving him an abundant supply of pure, sparkling water. Mr. Martin says he is well pleased and will gladly recommend the Hay State Artesian Well Co., Inc. (of Warner and Woodville, N. H.), to anyone in need of a good water supply. Mr. Martin says he feels he would be doing his neighbors a good service by telling them about the benefits that he knows that he is going to derive from this successful artesian well. He has been so enthralled in the past by having water that now he cannot forget it and give his whole time in attending to other business.

The steam drilling machine will remain on Mr. Martin's farm for several days to give others interested in a better and never failing water supply a chance to contract for an artesian well. Lower rates can be given before the well-drilling outfit is freighted away. Address Hay State Artesian Well Co., Inc., at Warner, N. H., or Woodville, N. H.—adv.
